

Ten profitable ways to build your business with Sage ERP X3

1. Higher ROI

Get the rewards and recognition you deserve for your contributions. Sage is committed to our partners and the ERP business space.

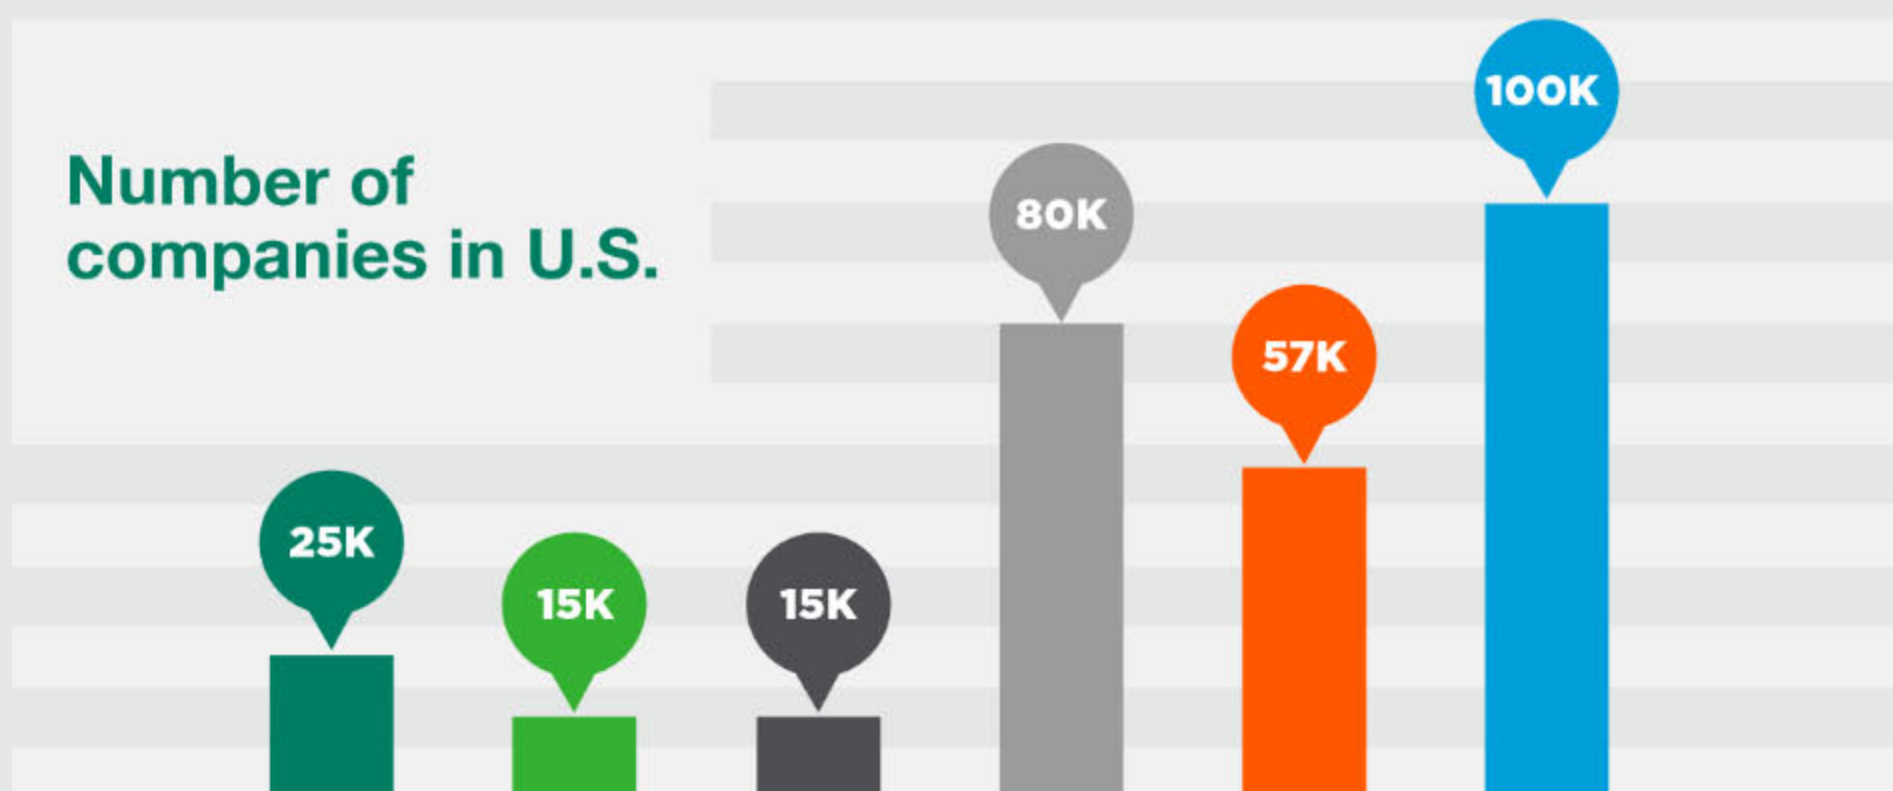

2. Dedicated partner team

Win and build reference accounts quickly with presales, sales, and implementation support from Sage.

3. Extensive industry opportunity

High industry value to large and growing market segments—nearly 300,000 companies in six identified segments—means huge potential for ambitious partners like you.

4. Mid-market and enterprise fit

Be a trusted resource and help your customers grow. With Standard and Premium versions, Sage ERP X3 supports growth from mid-market to enterprise without new products or implementations.

5. Powerful positioning

Looking to win in a competitive market? Count on Sage ERP X3 for powerful, flexible business management for midsized and larger companies.

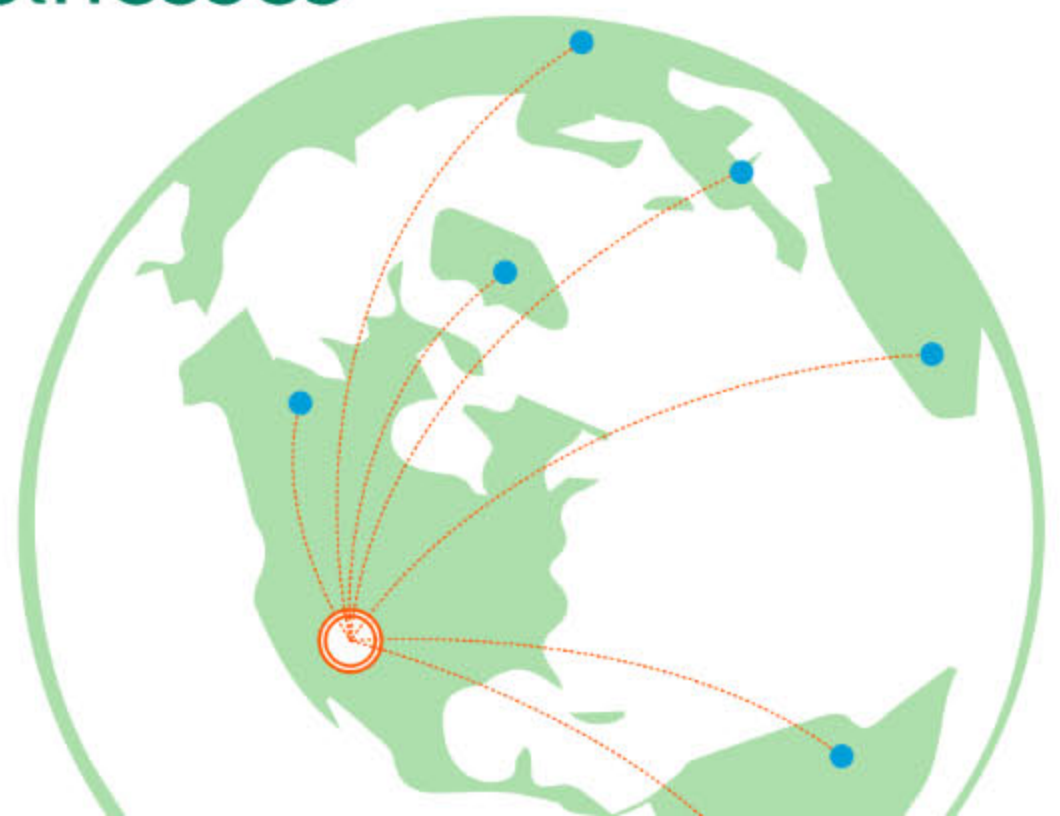

"We chose to go with Sage based on its demonstrated commitment to partners and the ERP business. Sage is fully engaged—they really helped us get our Sage ERP X3 practice off the ground."

George Braun, president, TGO Consulting, Toronto, ON, Canada

6. Support for growing businesses

Help customers expand domestically or build global businesses with out-of-the-box support for diverse requirements including multicurrency, multientity, multilanguage, and multijurisdiction.

7. Recognized excellence

Trust Sage for quality and leadership. Sage ERP X3 is positioned as an ERP Champion by Info-Tech Research Group, the fastest-growing North American IT analyst firm.

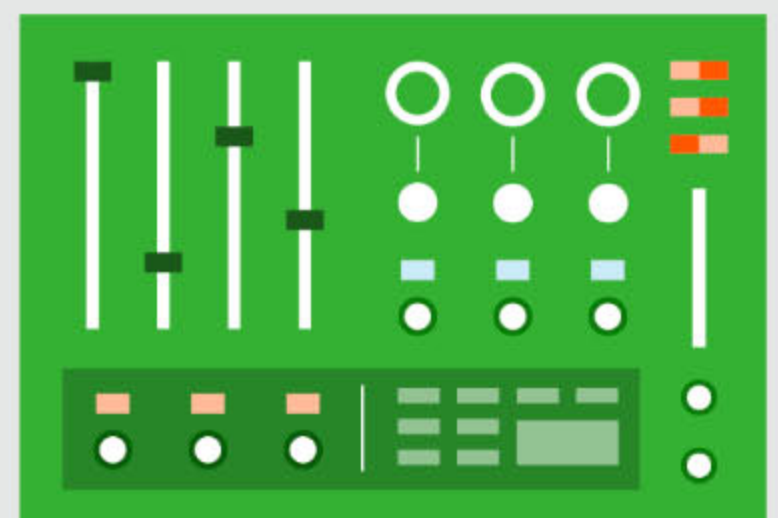

8. Rich marketing resources

Streamline and strengthen your marketing campaigns with marketing development fund programs (MDF), access to preferred marketing vendors and analysis reports, compelling messaging, and an online sales and marketing community.

9. The power of choice

Give your customers choice and control. Deploy Sage ERP X3 locally or globally; web-native capabilities ensure that all users have access anywhere. Choose a subscription or standard licensing options for maintenance and support.

10. A seamless solution

10. A proven solution

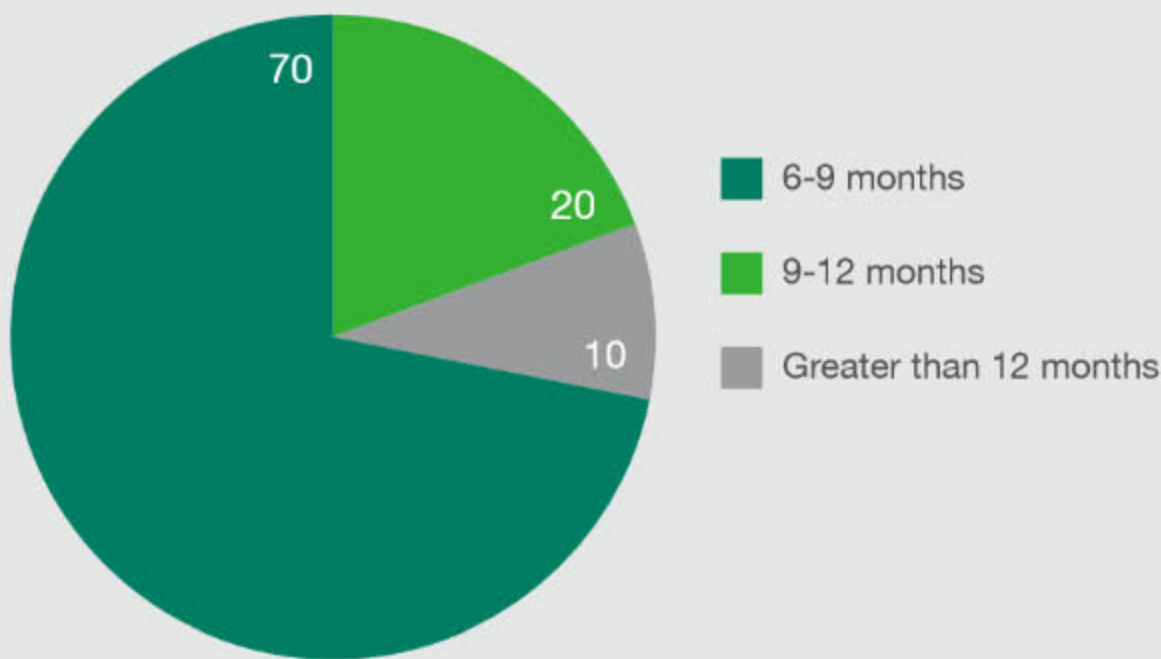

Demonstrate immediate credibility and expertise with an established customer base in key industries including chemical, food and beverage, life sciences, manufacturing, and wholesale distribution companies across the globe.

More than 4,000+ customers in 64 countries with 205,000+ users
